PROFESSIONAL EXPERIENCE

Front-End Developer   London, UK · Remote   08/2024 – Present
Confidential – London-based EdTech Startup

· Mobile app development using **React Native, Expo, and Tamagui.**
· Direct collaboration with the design team, utilizing tools like **Figma**.
· Assisting in some back-end and design tasks, **demonstrating adaptability in full-stack development.**
· Participation in an international team with professionals of different nationalities.

Front-End Developer   Santa Cruz do Sul – RS, Brazil   08/2022 – Present
*dalvan c_*

· Development of responsive websites and applications (compatible with mobile devices) using modern CSS frameworks and JavaScript libraries such as **Tailwind CSS and React.**
· Design and implementation of interfaces focused on improving **user experience (UX)** using component-based architectures, **resulting in modular and reusable front-end solutions.**
· Use of **REST APIs** for creating web applications, ensuring efficiency in data retrieval and interaction with back-end services.

Coordinator   Manaus – AM, Brazil   07/2019 – 08/2021
Research and Mapping Agent III   Santa Cruz do Sul – RS, Brazil   05/2017 – 07/2019
Topocart Engenharia

· Coordinated office teams in Manaus and Brasília (the latter remotely) in executing tasks for projects across different locations in the country, contributing to operational efficiency and goal achievement.
· Ensured stability and efficiency of the IT infrastructure in the Manaus office, **leading the management and maintenance of workstations, servers, and storage** in close collaboration with the company's IT team at the headquarters in Brasília, DF.

IT Technician   Santa Cruz do Sul – RS, Brazil   01/2012 – 05/2017
IDB Informática

· Led the technical support department **for over 5 years**, providing remote and on-site technical support to end users. Additionally, trained new technicians and established standards for problem detection and resolution at both software and hardware levels.
· Performed on-site maintenance and management of IT and network infrastructure for corporate clients, significantly optimizing issue resolution.
